TT403UF

250KG CAPACITY

SUITABLE FOR: CLASSIC AND ROD HAMMOCKS
FROM **280(W)** x **360(L)**cm

WARNING

Read instructions before use and keep for future reference. Failure to read these instructions before use can lead to an increased risk of injury. When installing always check with a qualified builder for safety. Two Trees will only guarantee the performance of this product when used with other Two Trees products. i.e. if non Two Trees hammocks or stand are used, the guarantee is void.

Thank you for purchasing a Two Trees hammock.

We at Two Trees know the importance of spending time relaxing. Hence we've developed a range of quality hammocks and convenient accessories that come with easy to follow instructions so that you will be relaxing in no time. It is important to read all instructions before use and take care when using your hammock. Please ensure that you adhere to the following safety measures to get the maximum enjoyment from your new hammock.

WARNING

Read instructions before use and keep for future reference. Failure to read these instructions before use can lead to an increased risk of injury. When installing always check with a qualified builder for safety.

CAUTION AND SAFETY INSTRUCTIONS

1. Assembly must be carried out by an Adult.
2. Ensure hammock is fully assembled before use.
3. **DO NOT** exceed the maximum load of 250kgs.
4. The maximum capacity of the hammock stand is 200kgs, only if hooks and screws are secured into position according to the instructions provided.
5. **DO NOT** climb into hammock feet first.
6. **DO NOT** stand in hammock.
7. **DO NOT** dive into or jump about in hammock.
8. **DO NOT** stick your head through the suspension cords.
9. Keep suspension cords as straight as possible, **DO NOT** twist.
10. Inspect frame feet and ensure they are stable before use.
11. **DO NOT** use damaged or weakened hammock hanging accessories.
12. Hammock fabrics and accessories will wear over time and use. Always check the loading capacity and condition of parts before use.
13. Hammocks are not designed for swinging, playing, climbing or to be used as a children's toy.
14. **DO NOT** leave children or pets unattended in or near hammock.
15. Hammock fabric, suspension cords and hanging accessories will become worn over time and use. Always inspect prior to use and **DO NOT** use if items show signs of damage or weakness.
16. Always check the loading capacity before use.
17. Keep hammock clear of obstructions.
18. Allow a minimum of 50cm clearance range around the perimeter of your hammock when in use (Fig. 1).
19. Only use the hammock on level floors with shock-absorbing properties such as carpet or outdoor grass to minimise the risk of injury in case of an accident. **DO NOT** use on slippery or hard surfaces.
20. Never use a free standing brick wall to hang your hammock.
21. Only use Two Trees accessories for hanging your hammock.
22. **DO NOT** modify hammock. Hammock must be used in accordance of this manual.
23. **DO NOT** smoke in or around the hammock. Keep away from heat or flames.
24. **DO NOT** use whilst wearing shoes, clothing, jewellery or accessories that have a hook and loop fastener.
25. **DO NOT** use near sharp objects.
26. A copy of this manual must be provided should the hammock transfer ownership.

THE TWO TREES HAMMOCKS RANGE INCLUDES

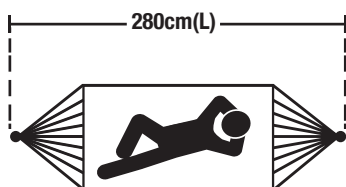

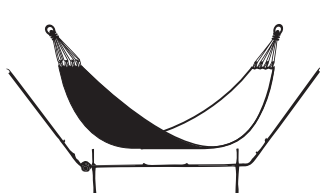

THINGS TO CONSIDER

WARNING

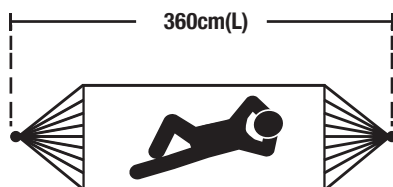

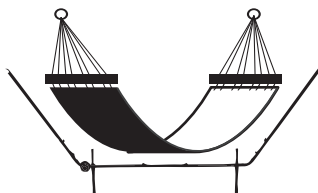

Read instructions before use and keep for future reference. Failure to read these instructions before use can lead to an increased risk of injury. When installing always check with a qualified builder for safety.

This hammock stand is adjustable in size from 295cm to 369cm in length. Therefore, the space you require to assemble this hammock stand will depend on the total length of the hammock you intend to use (not included).

HAMMOCK STAND **MIN** SIZE:
295cm (L) x 99cm (W) x 99.5cm (H)

Suitable for hammocks with a minimum of 280cm from end to end

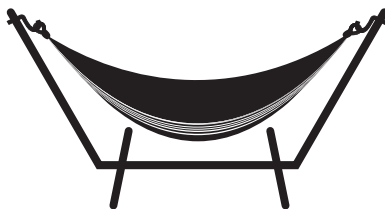

HAMMOCK STAND **MAX** SIZE:
369cm (L) x 99cm (W) x 115cm (H)

Suitable for hammocks with a maximum of 360cm from end to end

DO NOT twist or knot suspension cords when hanging.

Hammocks will stretch by 5-10% after the first few uses. Adjustments can be made after each use to keep you and your hammock comfortable.

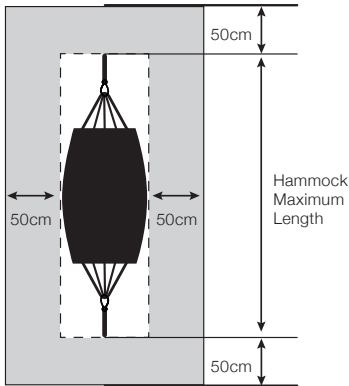

THINGS TO CONSIDER

DO NOT exceed the maximum load of 250kgs.

DO NOT leave children or pets unattended in or near hammock.

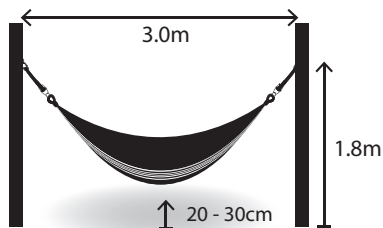

Allow a minimum of 50cm clearance range around the perimeter of your hammock when in use. <Fig.1>

To hang your Two Trees hammock you will require two fixed points, such as trees, beams, posts, or dyna bolts into brick walls. Alternatively you can purchase a Two Trees Universal Stand. Consult a qualified builder if unsure.

WARNING: Never use a free standing brick wall to hang your hammock.

Your Two Trees hammock will require a minimum of 3 metres between fixing points to get the ideal shape. Rope may be needed to attach one end of the hammock, it is recommended to use a double piece to avoid the hammock twisting.

Hang the hammock loops at roughly the same height. When the hammock is in use it should sit 20-30cm above the ground.

TEMPORARY INSTALLATIONS

For temporary installations, such as trees or beams, we recommend using the Two Trees hammock hanging kit (TT501HK). For more information about our installation products please visit our website (www.twotreeshammocks.com.au)

- 1 Place the cord around the pole or tree, then thread through the figure eight hook.

- 2 Thread the cord through the clamp hook and secure at desired length.

- 3 Repeat process for other side of hammock. Ensure both hooks are secure, place hammock ends over hooks.

TEMPORARY INSTALLATIONS

For temporary installations that are portable and do not require a fixed point we recommend using the Two Trees Universal Stand (TT403UF).

- 1 Assemble and set up your universal stand according to the included instructions that were included with your Universal Stand.

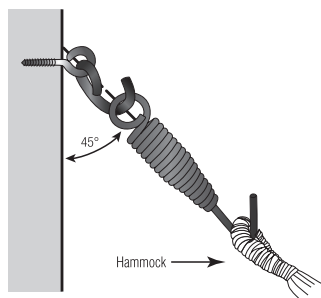

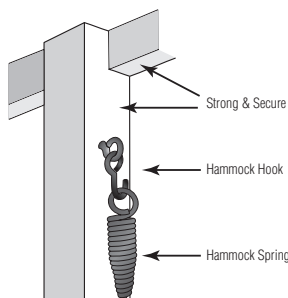

- 2 Attach the hammock onto the hooks at either end ensuring the hammock and suspension cords are not twisted.

PERMANENT INSTALLATIONS

We recommend using the Two Trees screw eye and hook (TT502HH) with the Two Trees springs (TT503HS). The spring is optional.

NOTE: It is recommended to use structurally sound, strong timber posts that are 10cm square or more. When installing always check with a qualified builder for safety.

For sturdy masonry walls (not air/hollow/single brick or besser block) a 10mm dyna bolt with a large washer and rope can be used.

For detailed installation instructions on (TT503HS) Two Trees Spring, please refer to the Two Trees website.

www.twotreeshammocks.com.au or scan the below QR code.

WARNING:

DO NOT EXCEED THE MAXIMUM LOAD OF 250KGS

Read instructions before use and keep for future reference. Failure to read these instructions before use can lead to an increased risk of injury. When installing always check with a qualified builder for safety.

HOW TO RELAX IN YOUR HAMMOCK

1

Open the hammock fabric in the centre of the hammock and slowly and safely sit in the middle as you would in a chair.

2

Gently lie back on a diagonal with your head on the edge of the hammock.

3

Bring your feet in and stretch them out, so you are lying on a diagonal. This is the traditional way to relax in a classic style hammock.

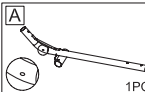

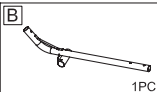

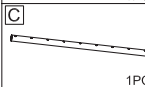

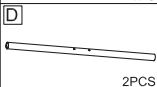

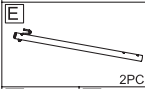

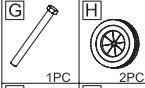

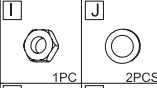

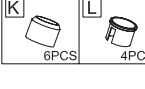

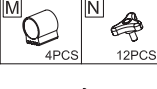

CARING FOR YOUR HAMMOCK STAND

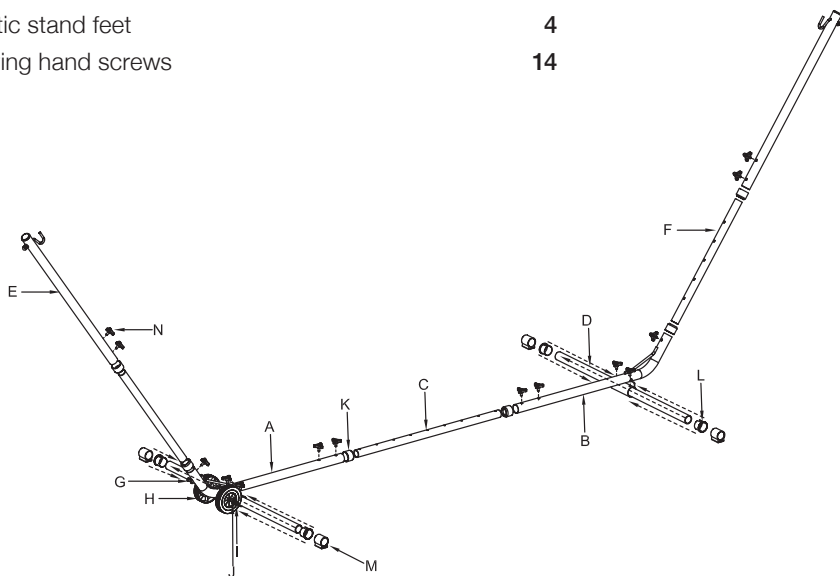

To ensure the lifespan of your Two Trees hammock stand, do not leave exposed to the elements for prolonged periods when not in use. Store away when not in use, as the sun and rain will deteriorate the construction over time.

To keep your hammock stand in good condition, apply a light coating of surface protectant wax to the outer surface. Store in dry place.

LIST OF PARTS

- A End angle tube with wheel hole
- B End angle tube
- C Centre base extension pipe, 36mm DIA x 840mm
- D Metal stand pipe 40mm DIA x 980mm
- E Metal arm pipes with fixed hooks, 42mm DIA x 910mm
- F Male extension pipes, 36mm x 560mm
- G Wheel assembly screw

HAMMOCK STAND MIN SIZE: 295(L) x 99(W) x 99.5(H)cm

Suitable for hammocks with a minimum of 280cm from end to end.

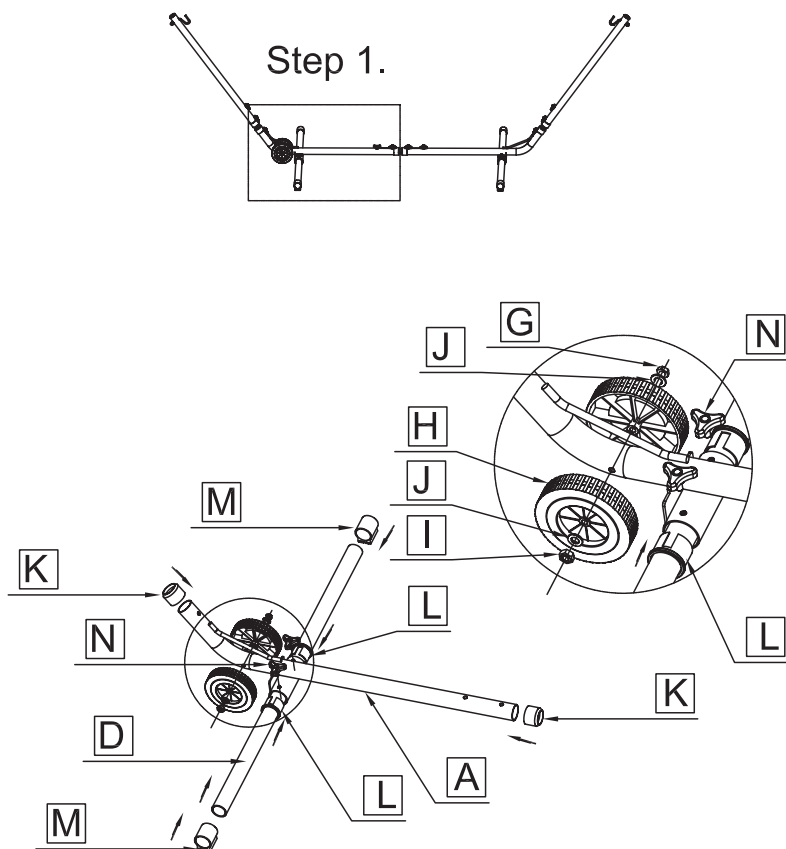

HAMMOCK STAND MAX SIZE: 369(L) x 99(W) x 115(H)cm

Suitable for hammocks with a maximum of 360cm from end to end.

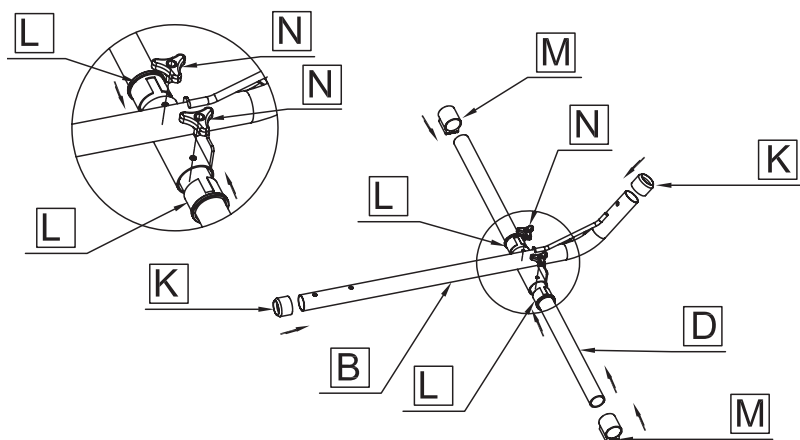

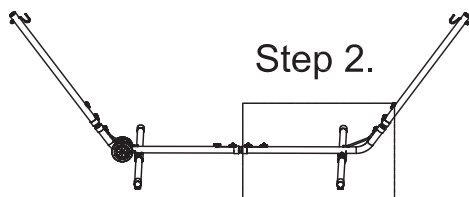

HAMMOCK STAND ASSEMBLY INSTRUCTIONS

- 1**
 - a. Insert part **L** (plastic inside collar) into both ends of the short tube on part **A** (end angle tube with wheel hole). Ensure the cut-out detail on the collars aligns with the holes on the short tube.
 - b. Thread part **D** (metal stand pipe) through the tube at the bend of part **A** (end angle tube with wheel hole) and secure in place with 2 part **N** (tri wing hand screws).
 - c. Assemble the part **H** (wheels) to either side of part **A** (end angle tube with wheel hole) using parts **G** (wheel assembly screw), **I** (wheel assembly nut) and **J** (wheel assembly washer).
 - d. Attach part **K** (plastic external collar) by pushing onto both ends of part **A** (end angle tube with wheel hole).
 - e. Push to attach part **M** (plastic stand feet) onto both ends of part **D** (metal stand pipe). Ensure that the flat ridged detail is facing the ground.

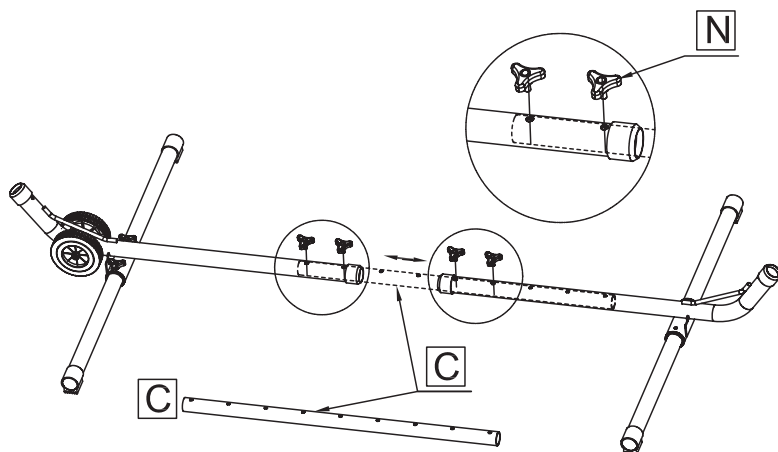

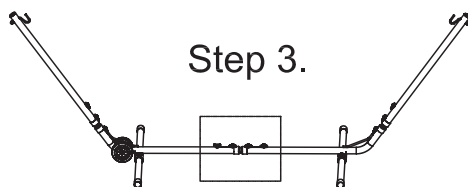

HAMMOCK STAND ASSEMBLY INSTRUCTIONS

- 2**
- Insert part **D** (plastic inside collar) into both ends of the short tube on part **B** (end angle tube). Ensure the cut-out detail on the collars aligns with the holes on the short tube.
 - Thread part **D** (metal stand pipe) through the tube at the bend of part **B** (end angle tube) and secure in place with 2 x part **N** (tri wing hand screws).
 - Attach part **K** (plastic external collar) by pushing onto both ends of part **B** (end angle tube).
 - Push to attach part **M** (plastic stand feet) onto both ends of part **D** (metal stand pipe). Ensure that the flat ridged detail is facing the ground.

HAMMOCK STAND ASSEMBLY INSTRUCTIONS

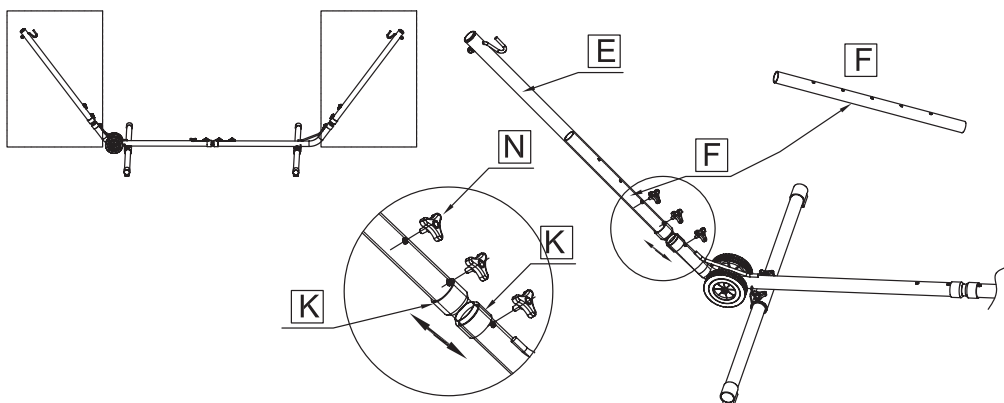

- 3** a. Insert part **C** (centre base extension pipe) into the middle of parts **A** (end angle tube with wheel hole) and **B** (end angle tube) leaving 2 spacing holes visible.
- b. Using part **N** (tri wing hand screws) secure part **C** (centre base extension pipe) to parts **A** (end angle tube with wheel hole) and **B** (end angle tube).

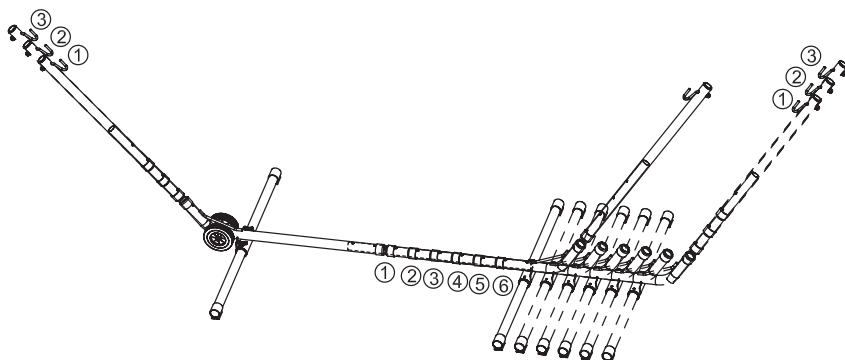

HAMMOCK STAND ASSEMBLY INSTRUCTIONS

- 4**
- Attach part **K** (external collar) onto the ends of both part **E** (metal arm pipe with fixed hook) components.
 - Insert part **F** (male extension pipe) into part **A** (end angle tube with wheel hole) and part **B** (end angle tube) and secure with a part **N** (tri wing hand screw) for both tubes.
 - Slide part **E** (metal arm pipe with fixed hook) over part **F** (male extension tube) and secure with 2 x part **N** (tri wing hand screw) for at each end.

NOTE: Make sure you have the same amount of visible holes at each end of the stand.

- 5**
- Stand can be adjusted in length and in height as your hammock stretches over time making it taught again.
 - We recommend setting the frame up on the shortest settings first then adjusting as required.
 - Your hammock should not sag onto the ground once you sit in it, there should be a medium taught ness in length height off the ground.
